SUMMARY:

Enthusiastic Front-End Developer with strong expertise in HTML, CSS, Bootstrap, and Tailwind CSS, along with a foundational understanding of JavaScript. Passionate about creating clean, responsive, and user-friendly web interfaces. A dedicated student eager to learn, grow, and apply skills through real-world projects.

WORK EXPERIENCE - PROJECT

Portfolio

🌐 https://yaqoob.basitbaloch.com

Developed a modern, responsive personal portfolio website to showcase my frontend development skills, projects, and pricing plans. The site includes interactive sections such as skills progress bars, project modals, and smooth animations for an engaging user experience. Focused on clean design, mobile responsiveness, and optimized performance to create a professional digital presence.

Technologies Used:

HTML5, CSS3, Tailwind CSS, Bootstrap 5, JavaScript , AOS (Animate On Scroll), Google Fonts, and Bootstrap Icons.

FashionStore E-Commerce Website (Bootstrap Project)

🌐 https://yaqoob.basitbaloch.com

Built a fully responsive fashion store website using HTML5, CSS3, Bootstrap 5, and JavaScript. Implemented responsive navigation bar, mega menu, carousel slider, dropdowns, cards, and AOS animations. Designed a modern UI using Bootstrap grid system, icons, and utilities for a sleek and user-friendly shopping experience.

Technologies Used:

HTML5 , CSS3 , Bootstrap 5 , JavaScript , AOS Library , Google Fonts & Bootstrap Icons

Diligent Technologies - Software Company Website

🌐   https://yaqoob.basitbaloch.com

Crafted a sleek, professional corporate website for a software company using HTML5, CSS3, Bootstrap 5, and JavaScript. Designed fully responsive pages — Home, About, Blog, and Pricing — featuring modern UI elements, interactive forms, animated backgrounds (Particles.js), and a polished navigation system. Leveraged Bootstrap's grid system, Font Awesome icons, and custom styling to deliver a refined, engaging, and business-grade web experience.

Technologies Used:

HTML5 · CSS3 · Bootstrap 5 · JavaScript · Font Awesome · Google Fonts ·

Particles.js · Responsive Design · Custom UI/UX Styling · Smooth Animations

Laube Titanium (Corporate Industrial Website)

🌐   https://yaqoob.basitbaloch.com

Description:

Designed and developed a modern, interactive portfolio project section using Bootstrap 5 and Tailwind CSS. Added responsive cards with modals containing detailed project info, dropdowns, and animations powered by AOS.js. Ensured smooth functionality, responsive layout, and controlled modal behavior for a seamless user experience.

Technologies Used:

HTML5, CSS3, Bootstrap 5, Tailwind CSS, JavaScript, AOS.js (Animate On Scroll), Bootstrap Bundle JS, Responsive Design.

Zonre Health – Insurance & Benefits Website

🌐   https://yaqoob.basitbaloch.com

Designed and developed a modern insurance company landing website using Bootstrap 5 and custom CSS.
Focused on structured layout design, interactive components, and clean corporate UI with marquee animations, content cards, and multi-section layouts.

Technologies Used:

HTML5, CSS3, Responsive Design, UI/UX Enhancement, Carousel & Grid

System.
